

Class-8

Sub.-English

Chap - Paragraph Writing

Write and learn the following paragraphs.

7. Morning Assembly In My School

Morning Assembly is a very important ritual. It is

also a part of the age-old culture of our country.

Every new work starts with prayers to our gods.

So it happens in a school too. Schools are like our

temples. Students and teachers stand in rows.

They say prayers before starting the day's work.

The scene is very calm and peaceful. All students

stand in rows in school uniform. In many schools,

some physical training is also given in the morning

assembly. Important information is also given to

the students by the Principal.

11. Bad Effects Of Watching Television

Television has become an essential part of every house. It is the cheapest source of entertainment. Children find it very interesting. But it has bad effects also. Seeing it for long hours harms the eyes. The students are left with less time to study. So their studies suffer. Many programmes influence young minds in a wrong way. Foreign programmes are not in good taste. The youth are easily attracted towards them. They forget their own age-old culture. Their lives are spoiled. So television should be watched under the guidance of the elders.
