Review Ex.

Q3. In a cricket many runs?

Solu. Runs scored by India in 1st Innings = 233
Runs scored by India in 2nd Innings = 317

Total runs scored by India =
$$\begin{array}{r} 233 \\ + 317 \\ \hline 550 \end{array}$$

Runs scored by England in 1st Innings = 349.

Answer continues to the next page.

Runs scored by England in 2nd
innings = 198

Total runs scored by England = $349 + 198 = 547$

India has more runs so it won
the match.

Difference between total = $584 - 547 = 37$

India won by 37 runs.

Review Ex.

Q4. In a jungle..... after rain?

Solu. No. of trees = 624

Trees planted more = 183

Total no. of trees = $624 + 183 = 807$

There are 807 trees in all.

16-9-20 Ch-5 Revision H.W.

Q1. Fill in the blanks:-

- $45 + 0 =$ _____
- $57 + 1 =$ _____
- $347 +$ _____ $= 347$
- $73 - 0 =$ _____
- $89 - 89 =$ _____
- $91 - 1 =$ _____
- $450 -$ _____ $= 0$
- $125 - 1 =$ _____
- $936 -$ _____ $= 936$
- $39 -$ _____ $= 38$

Q2. Add or Subtract:-

a. H T O	b. H T O	c. H T O
4 5 0	9 0 0	7 2 5
+ 3 7 8	- 5 6 3	- 3 5 2
